

## QUALIFICATIONS PACK - OCCUPATIONAL STANDARDS FOR ELECTRONICS INDUSTRY

### Contents

1. Introduction and Contacts.....P1
2. Qualifications Pack.....P2
3. OS Units.....P3
4. Glossary of Key Terms.....P24
5. Nomenclature for QP & OS.....P26

### What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

### Introduction

## Qualifications Pack-CCTV Installation technician

**SECTOR:** ELECTRONICS

**SUB-SECTOR:** IT Hardware

**OCCUPATION:** After Sales Support

**REFERENCE ID:** ELE/Q4605

**ALIGNED TO:** NCO-2004/ NIL

**CCTV Installation Technician:** Also called 'CCTV Installer', the CCTV installation Technician provides after sale support services to customers, typically, at their premises.

**Brief Job Description:** The individual at work is responsible for installing the CCTV system in the customer premises. The individual understand the customer and site requirement, installs the camera and integrates the hardware for effective CCTV surveillance system functioning.

**Personal Attributes:** The job requires the individual to have: ability to build interpersonal relationships, patience, listening skills and critical thinking. The individual must be willing to travel to client premises in order to install equipment at different locations.

Job Details	Qualifications Pack Code	ELE/Q4605		
	Job Role	CCTV Installation Technician		
	Credits(NVEQF/NVQF/NSQF) [OPTIONAL]	TBD	Version number	1.0
	Sector	Electronics	Drafted on	18/01/14
	Sub-sector	IT Hardware	Last reviewed on	24/03/14
	Occupation	After Sales Support	Next review date	24/04/15

Job Role	CCTV Installation Technician Also called 'CCTV Installer'
Role Description	Understanding the customer's requirements, installing the camera and CCTV hardware equipment and configuring the system for surveillance function
NVEQF/NVQF level	4
Minimum Educational Qualifications	ITI
Maximum Educational Qualifications	Diploma
Training	Not Applicable
Experience	Minimum 6 months as helper
Applicable National Occupational Standards (NOS)	<p><b>Compulsory:</b></p> <ol style="list-style-type: none"> <li><a href="#">ELE/N4609 Visit site and understand customer's requirement</a></li> <li><a href="#">ELE/N4610 Install CCTV camera</a></li> <li><a href="#">ELE/N4611 Setup CCTV surveillance system</a></li> <li><a href="#">ELE/N9909 Coordinate with colleagues and co-workers</a></li> </ol> <p><b>Optional:</b> Not applicable</p>
Performance Criteria	As described in the relevant OS units

# National Occupational Standard

## Overview

This unit is about visiting the customer's premises and checking the site conditions where the CCTV camera would be installed and deciding the system setup as per the site requirement. It also involves interacting with customer and understanding their requirement.

**ELE/N4609**

**Visit site and understand customer requirement**

National Occupational Standard

<b>Unit Code</b>	<b>ELE/N4609</b>
<b>Unit Title (Task)</b>	<b>Visit site and understand customer requirement</b>
<b>Description</b>	This unit is about visiting and checking the site condition where the Closed-circuit television (CCTV) camera would be installed; deciding the system setup; and interacting with customer
<b>Scope</b>	<p>This unit/ task covers the following:</p> <ul style="list-style-type: none"> <li>• Interact with the customer</li> <li>• Understand their requirements</li> <li>• Visit the site</li> <li>• Understand the site condition and requirement</li> <li>• Suggest possible solutions</li> <li>• Decide on the CCTV system to be installed</li> <li>• Achieve productivity and quality standards</li> </ul>
<b>Performance Criteria(PC) w.r.t. the Scope</b>	
<b>Element</b>	<b>Performance Criteria</b>
<b>Interacting with customer</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC1. greet the customer and listen to their requirements</p> <p>PC2. understand the basic requirement of the customer</p> <p>PC3. understand the basic layout of site where the CCTV system to be installed from the customer</p> <p>PC4. check with customer about time for visit, field work and confirm location</p> <p>PC5. follow etiquette when interacting with customers as per company policy</p>
<b>Understanding customer's requirements</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC6. interact with the customers to understand the purpose of CCTV installation</p> <p>PC7. understand the system monitoring requirement including combination of viewing, recording and replay</p> <p>PC8. understand the type of camera preferred by customer such as fixed camera, pan/tilt, zoom options, day/night camera</p>
<b>Understanding the site condition</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC9. visit the site and understand the layout</p> <p>PC10. seek customer's approval for visiting the rooms in the premises</p> <p>PC11. understand the area and other measurement specifications</p> <p>PC12. identify the locations where the CCTV camera to be installed which could capture maximum area in the video coverage</p> <p>PC13. decide if any mounting structure or pole is required for camera installing</p> <p>PC14. understand the building structure for cabling purpose</p>
<b>Suggesting solutions</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC15. interact with customer to inform the observation made from surveillance aspect after the site check</p> <p>PC16. suggest the CCTV systems that could fulfil customer's and site requirement</p> <p>PC17. suggest the type of camera and recording system to be installed</p>

**ELE/N4609**

**Visit the site and understand the customer requirement**

	<p>PC18. suggest the hardware / software requirements if it has to be connected with IP network or for remote monitoring</p> <p>PC19. suggest the hardware system that suit the customer budget and meet the functional requirement</p> <p>PC20. assess any hesitation from customer on selection of system and provide an alternative solution</p>
<p><b>Deciding the CCTV system to be installed</b></p>	<p>To be competent, the user/ individual must be able to:</p> <p>PC21. confirm the number and type of camera to be installed as per the site requirement</p> <p>PC22. take confirmation on mounting points of camera in the site</p> <p>PC23. confirm the location of system placement (recorder and monitoring)</p> <p>PC24. confirm the monitor or hardware requirement (TV / PC) and whether it is available</p> <p>PC25. confirm the type of transmission to output device: IP network or Digital Video Recorder (DVR) or remote and confirm hardware requirements</p> <p>PC26. estimate the time for installation process and inform the customer</p> <p>PC27. inform the customer about hardware details including cost and take their sign off</p>
<p><b>Achieving productivity and quality standards</b></p>	<p>To be competent, the user/ individual must be able to:</p> <p>PC28. ask open and close-ended questions to understand the customer requirement and expectation about the CCTV system</p> <p>PC29. educate about different systems and equipments available to meet customer requirements</p> <p>PC30. achieve customer satisfaction on engagement behaviour such as listening to complaints or appropriate dressing</p> <p>PC31. educate customers about the different type of CCTV systems available in the market and suggest an ideal system for the site</p>
<p><b>Knowledge and Understanding (K)</b></p>	
<p><b>A. Organizational Context</b> (Knowledge of the company / organization and its processes)</p>	<p>The individual on the job needs understand:</p> <p>KA1. company's policies on: customer care, warranties, products</p> <p>KA2. company's code of conduct</p> <p>KA3. organisation culture and typical customer profile</p> <p>KA4. company's reporting structure</p> <p>KA5. company's documentation policy</p> <p>KA6. company's service level agreements and policies</p>
<p><b>B. Technical Knowledge</b></p>	<p>The individual on the job needs to know and understand:</p> <p>KB1. CCTV camera installation requirement in terms of equipment, system , tools, applications appropriate for a particular site</p> <p>KB2. preparation of field and site for camera installation</p> <p>KB3. design criteria for CCTV camera installation</p> <p>KB4. location criteria for CCTV camera installation</p> <p>KB5. different types of CCTV equipments in the market, their specifications and prices</p> <p>KB6. different types of CCTV camera and associated systems</p> <p>KB7. different types of DVR and their purposes</p>

**ELE/N4609**

**Visit the site and understand the customer requirement**

	<p>KB8. tools and equipment to carry for installations</p> <p>KB9. precautions to be taken while handling field calls and dealing with customers</p> <p>KB10. relevant reference sheets, manuals and documents to carry in the field</p>
<b>Skills (S)</b>	
<b>A. Core Skills/ Generic Skills</b>	<b>Reading and writing skills</b>
	<p>The individual on the job needs to know and understand:</p> <p>SA1. how to read product and module serial numbers and interpret details such as make, date, availability</p> <p>SA2. how to note problems on job sheet and details of work done</p>
<b>B. Professional Skills</b>	<b>Interpersonal skills</b>
	<p>The individual on the job needs to know and understand:</p> <p>SB1. how to develop a rapport with customers</p> <p>SB2. how to listen carefully and interpret their requirement</p> <p>SB3. how to suggest customer on possible solutions</p>
	<b>Communication skills</b>
	<p>The individual on the job needs to know and understand:</p> <p>SB4. how to seek inputs at assess the problems</p> <p>SB5. how to put the customer at ease and suggest solutions</p> <p>SB6. how to communicate in local language</p> <p>SB7. how to educate and inform customer about contractual issues such as warranty, cost of service and equipment replacement</p> <p>SB8. how to educate on precautions to be taken post installations to avoid any mishaps</p>
	<b>Behavioural skills</b>
<p>The individual on the job needs to know and understand:</p> <p>SB9. importance of personal grooming</p> <p>SB10. significance of etiquette such as maintaining the appropriate physical distance with customer during conversation, not entering bedroom without permission</p> <p>SB11. importance of being patient and courteous with all types of customers</p> <p>SB12. being polite and courteous under all circumstances</p>

# National Occupational Standard

## Overview

This unit is about installing the CCTV camera in the customer premises as per customer's preference and connecting the camera to the system through cables.

**ELE/N4610**

**Install the CCTV camera**

National Occupational Standard

<b>Unit Code</b>	<b>ELE /N4610</b>
<b>Unit Title (Task)</b>	<b>Install the CCTV camera</b>
<b>Description</b>	This unit is about installing the CCTV camera at customer's premises as per customer's preference and connecting the camera to the system through cables
<b>Scope</b>	<p>This unit/ task covers the following:</p> <ul style="list-style-type: none"> <li>• Procure the hardware required for installation</li> <li>• Test the hardware before installation</li> <li>• Connect the cables</li> <li>• Install and setup the camera</li> <li>• Use appropriate tools and equipments for installation</li> <li>• Achieve productivity and quality standards</li> </ul>
<b>Performance Criteria(PC) w.r.t. the Scope</b>	
<b>Element</b>	<b>Performance Criteria</b>
<b>Procuring CCTV hardware</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC1. procure the hardware required for CCTV system installation</p> <p>PC2. ensure that all the hardware matches the customer requirement, agreed features and specifications</p> <p>PC3. understand the warranty associated with the hardware product</p> <p>PC4. and related documents for the hardware equipments</p>
<b>Testing hardware before installation</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC5. check the hardware equipments before taking to the installation site</p> <p>PC6. replace the hardware if there is any issue or malfunction is found while testing</p> <p>PC7. check for critical equipment such as camera, recorder w.r.t quality and output</p> <p>PC8. ensure all the tools, equipments, utilities are available in good to enable installing in single visit</p>
<b>Connecting cables</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC9. lay the cables in the building or site to connect the camera and system</p> <p>PC10. ensure adequate length of co-axial and other cables are available for installation</p> <p>PC11. use BNC connectors for joining cables and crimp them</p> <p>PC12. use power cable of specified thickness to connect CCTV system with power supply</p> <p>PC13. connect all the cables from multiple cameras to the CCTV system area</p>
<b>Setting up the camera</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC14. mount the CCTV camera so as to cover maximum area</p> <p>PC15. decide whether the camera requires any enclosure to protect from dust, vandalism and climatic conditions</p> <p>PC16. use stable mounting structure and ensure that is not disturbed by wind or rain which would affect the video quality</p>

**ELE/N4610**

**Install the CCTV camera**

	<p>PC17. decide on the height of camera installation according to the end purpose (for example: if the visitor entering the premise is to be monitored, camera should not be placed too high and their face would not be captured)</p> <p>PC18. set up the type of camera such as pan, tilt, zoom unit as per customer requirement</p> <p>PC19. set camera controls</p> <p>PC20. connect the power and video output cable to the camera</p>
<p><b>Using tools and equipments</b></p>	<p>To be competent, the user/ individual must be able to:</p> <p>PC21. use tools such as diagonal cutters, screwdrivers, crimp tools, knife for cabling and camera mounting</p> <p>PC22. follow standard operating procedure of tools and equipments and avoid any hazard</p> <p>PC23. follow the installation manual for specific hardware product</p> <p>PC24. use recommended tools for specific equipment to avoid damage</p> <p>PC25. follow standard safety procedures while installing</p>
	<p>To be competent, the user/ individual must be able to:</p> <p>PC26. ensure that only quality hardware products are procured complying to industry and quality standards</p> <p>PC27. ensure product installation and user manual is available which should be given to the user or customer</p> <p>PC28. ensure that there are no cable joins, sharp bends during cabling</p> <p>PC29. ensure weather proof (UV proof) cable are used in outdoors</p> <p>PC30. ensure that cabling is sturdy, protected and does not disturb the ambience of building</p> <p>PC31. ensure that cameras are protected from light while installing in outdoor</p> <p>PC32. ensure the intended area is covered during movement in case of tilt or pan type of camera</p> <p>PC33. assess power requirement of camera and use required power supply and cable</p> <p>PC34. educate customer on use of cameras for desired monitoring and warranty period and annual maintenance requirement</p> <p>PC35. ensure zero-material damage while handling the equipment during installation process</p> <p>PC36. install target number of CCTVs as per company's policy</p>
<p><b>Knowledge and Understanding (K)</b></p>	
<p><b>A. Organizational Context</b> (Knowledge of the company / organization and its processes)</p>	<p>The individual on the job needs to know and understand:</p> <p>KA1. company's policies on: incentives, delivery standards, and personnel management</p> <p>KA2. company's sales and after sales support policy</p> <p>KA3. importance of the individual's role in the workflow</p> <p>KA4. reporting structure</p> <p>KA5. company's policy on product's warranty and other terms and conditions</p> <p>KA6. company's line of business and product portfolio</p> <p>KA7. company's customer support and service policy</p>

**ELE/N4610**

**Install the CCTV camera**

<p><b>B. Technical Knowledge</b></p>	<p>The individual on the job needs to know and understand:</p> <p>KB1. basic electronics involved in the hardware</p> <p>KB2. basic electrical and wiring</p> <p>KB3. different types of electronic surveillance products and functionalities</p> <p>KB4. functions of electrical and mechanical parts or modules</p> <p>KB5. typical customer profile</p> <p>KB6. elements of CCTV systems such as camera, DVR, monitor</p> <p>KB7. company's portfolio of products and that of competitors</p> <p>KB8. installation procedures given in the manuals</p> <p>KB9. specification and the procedures to be followed for setting up the system</p> <p>KB10. different type of cables used for data transmission and power transmission</p> <p>KB11. power requirement of different CCTV related equipment</p> <p>KB12. video recording of footage – analog and digital</p> <p>KB13. different types of camera available in the market</p> <p>KB14. camera specifications such as focus, lens type, zoom</p> <p>KB15. controls of different options in camera such as rotation, speed of movement in pan / tilt camera</p> <p>KB16. voltage and power requirement for different hardware devices</p> <p>KB17. how to operate the system and other hardware</p> <p>KB18. safety rules, policies and procedures</p> <p>KB19. quality standards to be followed</p>
<p><b>Skills (S) [Optional]</b></p>	
<p><b>A. Core Skills/ Generic Skills</b></p>	<p><b>Reading and writing skills</b></p> <p>The user/individual on the job needs to know and understand how:</p> <p>SA1. to document the completed work</p> <p>SA2. to note the installation completed</p> <p>SA3. to read the standard operating procedures for different equipment</p> <p><b>Teamwork and multitasking</b></p> <p>The user/individual on the job needs to know and understand how:</p> <p>SA4. to share work load as required</p> <p>SA5. to achieve the targets given on installations</p>
<p><b>B. Professional Skills</b></p>	<p><b>Hardware and electrical skills</b></p> <p>The user/individual on the job needs to know and understand how to:</p> <p>SB1. operate hardware equipment in CCTV system</p> <p>SB2. different types of cables that are required to integrate CCTV system</p> <p>SB3. voltage requirement and other specification on CCTV hardware</p> <p><b>Using tools and equipment</b></p> <p>The user/individual on the job needs to know and understand how:</p> <p>SB4. to operate tools such as diagonal cutter, screwdrivers, crimping tools for cabling and mounting of camera</p> <p>SB5. to use other specific devices for installation of camera</p>

**ELE/N4610**

**Install the CCTV camera**

	<b>Reflective thinking</b>
	The user/individual on the job needs to know and understand how: SB6. to improve work processes SB7. to reduce repetition of errors
	<b>Critical thinking</b>
	The user/individual on the job needs to know and understand how: SB8. to spot process disruptions and delays SB9. to report on any customer concerns to superiors without delay

# National Occupational Standard

## Overview

This unit is about connecting the CCTV camera to the recorder and setting up the CCTV monitoring system for viewing and recording the images as per the customer requirement.

**ELE/N4611**

**Setup the CCTV surveillance system**

National Occupational Standard

Unit Code	ELE /N4611
Unit Title (Task)	Setup the CCTV surveillance system
<b>Description</b>	This unit is about connecting the CCTV camera to the recorder and setting up the CCTV monitoring system for viewing and recording images as per customer's requirement.
<b>Scope</b>	<p>This unit/ task covers the following:</p> <ul style="list-style-type: none"> <li>• Connect CCTV camera and DVR with the system</li> <li>• Setup the CCTV system</li> <li>• Ensure system functioning and perform a demo</li> <li>• Complete the installation task and report</li> <li>• Interact with customer</li> <li>• Interact with superior</li> <li>• Achieve productivity and quality as per company's norms</li> </ul>
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
<b>Connecting CCTV camera and DVR with the system</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC1. procure and place the Digital Video Recorder (DVR) in an appropriate place as per customer's requirement</p> <p>PC2. connect all the cameras installed to the DVR</p> <p>PC3. ensure that all cameras are connected to the DVR and the wiring is appropriate</p> <p>PC4. connect the monitor (TV / PC) with the video output connection in the DVR</p> <p>PC5. connect speakers, if required, for audio output to DVR</p> <p>PC6. connect the camera optional controls (tilt / pan / zoom) to DVR</p> <p>PC7. use DVR link option to connect with other DVR in the network</p> <p>PC8. connect the DVR to router, if required, to enable remote monitoring</p>
<b>Setting up CCTV system</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC9. connect the power supply of DVR, monitor, speakers to set up the system</p> <p>PC10. install the appropriate software for IP network or remote monitoring</p> <p>PC11. enter the appropriate IP address to receive the video signals through IP network / internet</p> <p>PC12. connect all equipments and switch on to start the video capture</p>
<b>Checking functioning of CCTV system</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC13. perform a demo of CCTV system operation with the customer</p> <p>PC14. ensure that all the controls in the system are properly working</p> <p>PC15. ensure that pan, tilt, zoom options of the camera are working</p> <p>PC16. monitor and switch to multiple camera installed and connected in the system</p> <p>PC17. perform viewing, recording and replaying the video captured in the system as per customer requirement</p>

**ELE/N4611**

**Setup the CCTV surveillance system**

	<p>PC18. take corrective action and fix the issues such as no video, lack of clarity in the system when found</p> <p>PC19. perform remote monitoring and controls associated if it is opted by customer</p>
<b>Interacting with customer</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC20. inform customer on adequate information about hardware device or software</p> <p>PC21. instruct customer on use of and procedures to be followed for operating the system or hardware</p>
<b>Reporting to superior</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC22. receive the work order from the superior</p> <p>PC23. report on the work load and completion status</p> <p>PC24. escalate the problems that cannot be resolved at field level with reason</p> <p>PC25. submit the feedback form on customer satisfaction level with respect to the installation</p> <p>PC26. accurately report work status through proper documentation as per company's standards</p>
<b>Achieving productivity and quality standards</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC27. ensure that there is no problem after installing the CCTV system and the output video is per customer's expectation</p> <p>PC28. confirm acceptance on installing any hardware or software in the system</p> <p>PC29. inform customer about warranty and other terms and conditions on the hardware equipment</p> <p>PC30. provide relevant documents to customers on completion of installation</p> <p>PC31. achieve 100% satisfaction with customer on installation service</p> <p>PC32. achieve 100% on time completion of field installation with reference to agreed target and time or reasons for not meeting target</p>
<b>Knowledge and Understanding (K)</b>	
<b>A. Organizational Context</b> (Knowledge of the company / organization and its processes)	<p>The individual on the job needs to know and understand:</p> <p>KA1. company's policies on: incentives, delivery standards, and personnel management</p> <p>KA2. company's sales and after sales support policy</p> <p>KA3. importance of the individual's role in the workflow</p> <p>KA4. reporting structure</p> <p>KA5. company's policy on product's warranty and other terms and conditions</p> <p>KA6. company's line of business and product portfolio</p>
<b>B. Technical Knowledge</b>	<p>The individual on the job needs to know and understand:</p> <p>KB1. different types of electronic surveillance products and functionalities</p> <p>KB2. functions of electrical and mechanical parts/ modules</p> <p>KB3. specification and the procedures to be followed for setting up the system</p> <p>KB4. different type of cables used for data transmission and power transmission</p> <p>KB5. power requirement of different CCTV related equipment</p> <p>KB6. video recording of footage – analog and digital</p> <p>KB7. different types of camera available in the market</p> <p>KB8. camera specifications such as focus, lens type, zoom</p> <p>KB9. controls of different options in camera such as rotation, speed of movement</p>

**ELE/N4611**

**Setup the CCTV surveillance system**

	<p>in pan / tilt camera</p> <p>KB10. voltage and power requirement for different hardware devices</p> <p>KB11. integration of hardware to setup the system</p> <p>KB12. parameters and specification for different types of system integration</p> <p>KB13. accessing image from remote locations</p> <p>KB14. CCTV monitoring and control over IP network / Internet</p> <p>KB15. IP technology and networking principles</p> <p>KB16. basics of networking</p> <p>KB17. video recording technologies</p> <p>KB18. controls in digital video recorder and their usage</p> <p>KB19. how to operate the system and other hardware</p> <p>KB20. safety rules, policies and procedures</p> <p>KB21. quality standards to be followed</p>
<b>Skills (S) [Optional]</b>	
<b>A. Core Skills/ Generic Skills</b>	<b>Reading and writing skills</b>
	<p>The user/individual on the job needs to know and understand how:</p> <p>SA1. to read job sheet and/or complaints registered at customer care</p> <p>SA2. to document the completed work</p> <p>SA3. to note customer complaints and solution provided</p> <p>SA4. to read the standard operating procedure manual for different equipment</p>
	<b>Teamwork and multitasking</b>
	<p>The user/individual on the job needs to know and understand how:</p> <p>SA5. to share work load as required</p> <p>SA6. to achieve the target</p>
<b>B. Professional Skills</b>	<b>Hardware and software operating skills</b>
	<p>The user/individual on the job needs to know and understand how to:</p> <p>SB1. operate computer and laptop</p> <p>SB2. operate CCTV related hardware equipments , their controls and specifications</p> <p>SB3. complete operational controls in Digital Video Recorder (DVR)</p> <p>SB4. networking and software involved set up CCTV system in a network</p> <p>SB5. configure different settings and installations of hardware and software as per customer requirement</p>
	<b>Using tools and machines</b>
	<p>The user/individual on the job needs to know and understand how to:</p> <p>SB6. to operate tools such as diagonal cutter, screwdrivers, crimping tools for cabling and mounting of camera</p> <p>SB7. to use other specific devices for installation of camera</p> <p>SB8. to use tools for integrating the systems</p>

**ELE/N4611**

**Setup the CCTV surveillance system**

	<b>Reflective thinking</b>
	The user/individual on the job needs to know and understand how to: SB9. improve work processes SB10. reduce errors on field and repeat trips
	<b>Critical thinking</b>
	The user/individual on the job needs to know and understand how to: SB11. spot process disruptions and delays SB12. report on any issues raised by customers to superiors without delay

# National Occupational Standard

## Overview

This unit is about the individual's level of communication with colleagues and other departments within the organisation. It determines the ability to work as a team member to achieve the required deliverables on schedule.

**Coordinate with colleagues and co-workers**

<b>Unit Code</b>	<b>ELE/N9909</b>
<b>Unit Title (Task)</b>	<b>Coordinate with colleagues and co-workers</b>
<b>Description</b>	This OS unit is about communicating with colleagues and seniors in order to achieve smooth work flow
<b>Scope</b>	<p>This unit/ task covers the following:</p> <ul style="list-style-type: none"> <li>• Interact with supervisor or superior</li> <li>• Coordinate with colleagues</li> </ul>
<b>Performance Criteria(PC) w.r.t. the Scope</b>	
<b>Element</b>	<b>Performance Criteria</b>
<b>Interacting with supervisor</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC1. understand and assess work requirements</p> <p>PC2. understand the targets and incentives</p> <p>PC3. understand new operating procedures and constraints</p> <p>PC4. report problems in the field</p> <p>PC5. resolve personnel issues</p> <p>PC6. receive feedback on work standards and customer satisfaction</p> <p>PC7. communicate any potential hazards at a particular location</p> <p>PC8. meet given targets</p> <p>PC9. deliver work of expected quality despite constraints</p> <p>PC10. receive positive feedback on behaviour and attitude shown during interaction</p>
<b>Coordinating with colleagues</b>	<p>To be competent, the user/ individual must be able to:</p> <p>PC11. interact with colleagues from different functions and understand the nature of their work</p> <p>PC12. receive spares from tool room or stores; deposit faulty modules and tools to stores</p> <p>PC13. pass on customer complaints to colleagues in a respective geographical area</p> <p>PC14. assist colleagues with resolving field problems resolve conflicts and achieve smooth workflow</p> <p>PC15. follow the company policy during cross functional interaction</p>
<b>Knowledge and Understanding (K)</b>	
<b>A. Organizational Context</b> (Knowledge of the company / organization and its processes)	<p>The individual on the job needs to know and understand:</p> <p>KA1. company's policies on: incentives, delivery standards, and personnel management</p> <p>KA2. importance of the individual's role in the workflow</p> <p>KA3. reporting structure</p>

**Coordinate with colleagues and co-workers**

<p><b>B. Technical Knowledge</b></p>	<p>The individual on the job needs to know and understand: KB1. how to communicate effectively KB2. how to build team coordination</p>
<p><b>Skills (S) [Optional]</b></p>	
<p><b>A. Core Skills/ Generic Skills</b></p>	<p><b>Teamwork and multitasking</b></p> <p>The individual on the job needs to know and understand how: SA1. to deliver product to next work process on time</p>
<p><b>B. Professional Skills</b></p>	<p><b>Decision making</b></p> <p>The individual on the job needs to know and understand: SB1. how to report potential areas of disruptions to work process SB2. when to report to supervisor and when to deal with a colleague depending on the type of concern</p> <p><b>Reflective thinking</b></p> <p>The individual on the job needs to know and understand: SB3. how to improve work process</p> <p><b>Critical thinking</b></p> <p>The individual on the job needs to know and understand: SB4. how to spot process disruptions and delays</p>

**Coordinate with colleagues and co-workers**

Definitions

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or an area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-function	Sub-functions are sub-activities essential to fulfil the achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (OS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding	Knowledge and understanding are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.

*Qualifications Pack For CCTV Installation Technician*

Core Skills/ Generic Skills	Core skills or generic skills are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.

**Acronyms**

Keywords /Terms	Description
NOS	National Occupational Standard(s)
NVQF	National Vocational Qualifications Framework
NSQF	National Qualifications Framework
NVEQF	National Vocational Education Qualifications Framework
QP	Qualifications Pack

## Annexure

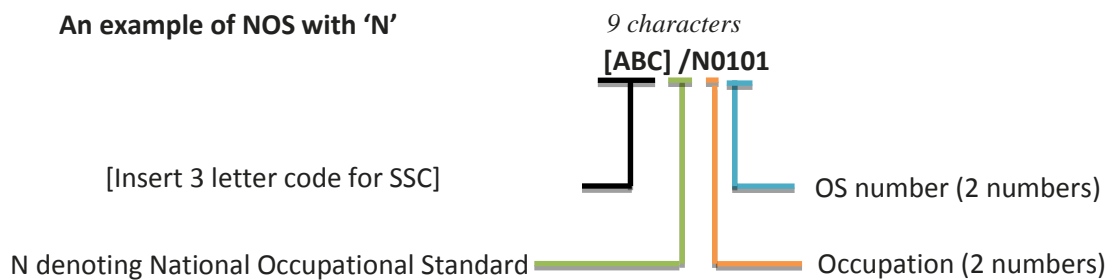

### Nomenclature for QP and NOS

#### Qualifications Pack

#### Occupational Standard

##### An example of NOS with 'N'

The following acronyms/codes have been used in the nomenclature above:

Sub-sector	Range of Occupation numbers
Passive Components	01 - 10
Semiconductors	11 - 20
PCB Manufacturing	21 - 30
Consumer Electronics	31 - 40
IT Hardware	41 - 50
PCB Assembly	51 - 55
Solar Electronics	56 - 60
Strategic Electronics	61 - 65
Automotive Electronics	66 - 70
Industrial Electronics	71 - 75
Medical Electronics	76 - 80
Communication Electronics	81 - 85
PCB Design	86 - 90
LED	91 - 95

Sequence	Description	Example
Three letters	Industry name	ELE
Slash	/	/
Next letter	Whether QP or NOS	Q
Next two numbers	Occupation code	01
Next two numbers	OS number	01
